🧠 TECHNICAL SKILLS

- Programming Language : Dart
- Framework : Flutter
- State Management: Provider
- Backend & APIs: REST APIs
- Backend Firebase : Firebase Auth , Supabase
- Local Storage: Hive, SQLite, SharedPreferences
- Version Control: Git, GitHub
- UI Development: Widgets, Layouts, UI/UX Implementation

🎓 PROFESSIONAL EXPERIENCE

KODLAR INNOVATIONS LLP – Flutter Developer (Project-Based), Nov 2024 – Present

- Working on a CRM and Field Service Management System as part of a group project
- Designing and developing mobile application features using Flutter and Dart

Bridgeon LLP – Flutter Developer Trainee, Feb 2024 – Nov 2024

- Gained hands-on experience in mobile application development using Flutter and Dart
- Worked with REST APIs and JSON data handling

📁 PROJECTS

CRM and Field Service Management System | Nov 2024 – Present,

11/2025 – Present

Ongoing group project...

- Engineered and integrated voice and chat modules for in-app communication between students and field counselors.
- Developed a secure, encrypted call recording feature for quality assurance and audit purposes
- Designed data structures to log, track, and categorize calls and chats within student profiles
- Building core CRM features including student profile management, inquiry tracking, and **real-time** scheduling for field services

Chat Application (Individual Project) | Flutter & Firebase | Aug 2025 – Sep 2025

08/2025 – 09/2025

- Built a secure **real-time** chat application using **Flutter** and **Firebase**.
- Implemented email and password authentication using Firebase Auth.
- Enabled instant messaging using Cloud Firestore.
- Added user profiles with image upload and display names.
- Designed responsive chat UI with message previews and smooth scrolling.
- Implemented read and unread message status with timestamps.
- Used Provider for state management.
- Applied clean architecture for scalable and maintainable code.
- Deployed the application on Android and iOS platforms.
